

## WAVES SUMMER SCHOOL 2017

The Waves Group at NCEP/NOAA in partnership with the University System of Maryland Foundation will be offering a one-week Waves Workshop at the University of Maryland (UMD) College Park Campus, July 24<sup>th</sup> - 28<sup>th</sup>, 2017.

Topics covered will include wave dynamics and modeling, basics of the WAVEWATCH III<sup>®</sup> model, grid structures, numerics, and oceanic and nearshore applications. The workshop will consist of morning lectures and afternoon tutorials, and is directed at graduate-level students and professionals. Working knowledge of Linux and Matlab is required. The workshop runs Monday through Friday, 8:00am – 5:00pm.

Registration for the Waves Summer School is \$300, and will cover UMD administrative costs and IT support. The school is held on the UMD campus, but there are no accommodations on campus. The university has a link to off-campus accommodations and visitor parking: <http://cvs.umd.edu/visitors/maps.html>. Parking is available in lots within walking distance at \$15/day. The course is held at:

Atlantic Building, Rm 3400

Dept. of Atmospheric & Oceanic Science and Geology

4254 Stadium Dr, College Park, MD 20740

There are 26 spots available in the workshop and acceptance will be on a first-come, first-served basis. If interested in participating in the workshop and for further information, please contact [Deanna.Spindler@noaa.gov](mailto:Deanna.Spindler@noaa.gov) as soon as possible.

Additional information:

\* There may be some funding available to cover registration costs for 2-3 graduate students in good standing. Please send us an email explaining your research goals and why you want to attend the workshop.

\* Hard maximum of 26 participants due to computer lab facilities.
