

CURRICULUM VITAE

Name: Vladimir Krasnopolsky

Phone: 301-683-3742

Fax: 301-683-3703

E-mail & http Addresses: Vladimir.Krasnopolsky@noaa.gov and
<http://polar.ncep.noaa.gov/mmab/people/vladimir/kvladimir.html>

EDUCATION

1971 **MS in Physics**, Moscow State University, Moscow, Russia

Major: Theoretical and Mathematical Physics. *Minors:* Computational Physics, Applied Mathematics, and Numerical Methods.

1978 **PhD in Physics**, Moscow State University, Moscow, Russia

BRIEF EMPLOYMENT HISTORY

2011 - present, **Physical Scientist**, Environmental Modeling Center, NCEP/NWS/NOAA

2003 - present, **Adjunct Professor**, Earth System Science Interdisciplinary Center,
University of Maryland

1998 -2011, **Leader**, Marine Prediction Group, SAIC at NCEP/NWS/NOAA.

1990-1998, **Physical Scientist**, SAIC at NCEP/NWS/NOAA

1989-1990, **Research Scientist** at The George Washington University (Department of Electrical Engineering & Computer Science).

1973-1989, **Senior Research Scientist** at Institute of Nuclear Physics, Moscow State University, Moscow, Russia.

RESEARCH AWARDS

"Best of Conference" Award, 1999 International Joint Conference on Neural Networks, Washington D.C., 1999

The NMC (NOAA) Outstanding Performance Award: for innovative research on the application of neural networks to satellite image processing, NOAA, 1994.

SPECIAL EXPERIENCES

Organizer of special sessions "Computational intelligence in earth and environmental sciences" at 2005, 2006, 2007, 2009, and 2010 IEEE/INNS International Joint Conference on Neural Networks.

Member of the IEEE/CIS Working Group "Computational intelligence in earth and environmental sciences", since 2005

Member of the INNS Working Group "Computational intelligence in earth and environmental sciences", since 2005

Member of the *Committee on Artificial Intelligence Applications to Environmental Science* of American Meteorological Society since 1999, **Chair** of this Committee from 2000 to 2003

Organizer and **Chair** of the 3rd AMS Conference on Artificial Intelligence Applications to the Environmental Science, Feb 9-13, 2003, Long Beach, CA; **an Organizer** of 4th to 7th AMS Conference on Artificial Intelligence Applications to the Environmental Science

Member of the organization committee of the International Workshop on "Advanced Environmental Sensing and Monitoring Technologies"

Member of the program committee and **organizer** of a special session at 2003, 2004, and 2005 IEEE International Conference on Computational Intelligence for Measurement Systems and Applications.

Short Course Invited by AMS: "Neural Network Applications to Environmental Sciences" 2 days Short Course, 84 Annual Meeting of American Meteorological Society, Seattle, WA, January 12-13 January 2004

Short Course Invited by AMS: "Neural Network Applications to Environmental Sciences" 2 days Short Course, 82 Annual Meeting of American Meteorological Society, Orlando, FL, January 12-13 January 2002

Invited Talk: "*Development of neural network convection parameterizations for climate models using CRM simulations and ARM data*", 90-th AMS Annual Meeting, Eighth Conference on Artificial Intelligence Applications to Environmental Science, Atlanta, GA, 18-22 January, 2010

Invited Talk: "*Using Neural Networks in Numerical Climate and Weather Forecast Systems*", 89-th AMS Annual Meeting, Seventh Conference on Artificial Intelligence Applications to Environmental Science, Phoenix, AZ, 11-15 January, 2009

Invited Talk: "*NN Emulations of Complex Geophysical Mappings: Some Atmospheric and Oceanic Applications*", University of RI, November 9, 2007

Invited Talk: "[*Acceleration of Calculations and Improvement of Model Physics Using Neural Networks*](#)", GFDL, Princeton, May 31, 2007

Invited Talk: "*Hybrid Numerical Climate and Weather Prediction Models Combining Deterministic and Statistical Learning Model Components*", 87th AMS Annual Meeting, Fifth Conference on Artificial Intelligence Applications to Environmental Science, San Antonio, TX, 14—18 January 2007

Invited Talk: "*Fast and Accurate Approximation of the Long Wave Radiation Parameterization in a GCM Using Neural Networks: Evaluation of Computational Performance and Accuracy of Approximation in the NCAR CAM-2*", CIMS2004 – IEEE International Conference on Computational Intelligence for Measurement Systems and Applications, Boston, MA, USA, 14-16 July 2004

Invited Talk: "*Application of Neural Networks to Accelerate Computations in Environmental Models*", Second IEEE International Workshop on Advanced Environmental Sensing and Monitoring Technologies, Como, Italy, 24-25 July, 2003

Invited Talk: "*Using adaptive learning techniques for fast and accurate approximation of physics in numerical models*", CIMS2003, IEEE International Symposium on Computational Intelligence for Measurement Systems and Applications, Lugano, Switzerland, 29-31 July, 2003

Invited Talk: "*NNs in satellite remote sensing, satellite meteorology and oceanography*", The First International Workshop on Advanced Environmental Sensing and Monitoring Technologies, Milan, Italy, June 26-28, 2001

Invited Talk: "*Using NNs to improve computational efficiency of environmental numerical models*", The First International Workshop on Advanced Environmental Sensing and Monitoring Technologies, Milan, Italy, June 26-28, 2001

Invited Talk: "*Neural Networks in Environmental Modeling*", Information Technology Seminars: "Focus on the Future", National Institute of Standards and Technology, Washington DC, September, 2000

Invited Talk: "*Introduction to Artificial Neural Networks with Atmospheric and Oceanic*

Applications", 80th AMS Annual Meeting, Long Beach, California, 10-14 January 2000
Special Invited Lecture: "Neural network solutions for remote sensing problems" at 7th
International Meeting on Statistical Climatology, Whistler, Canada, May 25-29, 1998

CURRENT RESEARCH INTERESTS/ACTIVITIES

- Neural network applications to atmospheric and oceanic modeling
- Inverse and forward problems in space-borne remote sensing
- Assimilation of satellite data into numerical models

RECENT NEW RESULTS

- Neural network method for developing fast physical parameterizations in atmospheric models: long and short wave radiations
- Neural network method for developing fast physical parameterizations in oceanic and wave models
- Neural network method for developing stochastic physical parameterizations in atmospheric models
- Neural network approach to develop fast forward models for direct assimilation of satellite data
- Neural network approach to develop satellite multi-parameter retrieval algorithms

SELECTED REFEREED PUBLICATIONS (the total of two books, two book chapters, over 50 papers in refereed scientific journals and over 70 technical and conference papers):

Books and Book Chapters:

V. Krasnopolsky , 2013, "*The Application of Neural Networks in the Earth System Sciences. Neural Network Emulations for Complex Multidimensional Mappings*", Springer, 200 pp.

V. Krasnopolsky , 2008, "Neural Network Applications to Solving Forward and Inverse Problems in Atmospheric and Oceanic Satellite Remote Sensing", a book chapter in "*Artificial Intelligence in Environmental Sciences*", ed. by S.E. Haupt, A. Pasini, and C. Marzban, Springer, 375 pp

V. Krasnopolsky , 2008, "Neural Network Applications to Developing Hybrid Atmospheric and Oceanic Numerical Models", a book chapter in "*Artificial Intelligence in Environmental Sciences*", ed. by S.E. Haupt, A. Pasini, and C. Marzban, Springer, 375 pp.

Kukulin, V.I., V.M. Krasnopolsky, and J. Horacek, "*Theory of resonances. Principles and applications.*" Kluwer Academic Publisher, Dordrecht/Boston/London, 1989
